Independent Auditor's Report

Board of Trustees University Health System Pension Plan San Antonio, Texas

We have audited the accompanying financial statements of the University Health System Pension Plan (the Plan), a component unit of Bexar County Hospital System d/b/a University Health System, as of and for the year ended December 31, 2018, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Board of Trustees University Health System Pension Plan Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Plan as of December 31, 2018, and the changes in its fiduciary net position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Prior Year Audited by Other Auditors

The December 31, 2017 financial statements were audited by other auditors, and their report thereon, dated May 1, 2018, expressed an unmodified opinion.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and pension information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion and Analysis

Years Ended December 31, 2018 and 2017

This discussion and analysis of the University Health System Pension Plan (the Plan) is for the years ended December 31, 2018 and 2017. This analysis provides a summary of the financial position of the Plan, including highlights and comparisons. For more detailed information regarding the Plan's financial activities, the reader should also review the actual financial statements, including notes and supplementary schedules.

Financial Statements

The financial statements of the Plan include statements of fiduciary net position and changes in fiduciary net position available for benefits. The purpose of these statements is to present information about the Plan's present and future ability to pay benefits when they are due. These statements are presented using an economic resource measurement focus and the accrual basis of accounting. The financial statements also include notes that explain the history and purpose of the Plan, significant accounting policies, investment details, and other required information regarding the financial position of the Plan.

Summarized Financial Information

The following table displays the total assets, liabilities and net position of the Plan:

	2018	2017	2016	Changes 2018-2017	Changes 2017-2016
Assets Liabilities	\$ 379,842,348 367,808	\$ 382,948,301 248,310	\$ 312,824,572 214,050	-0.81% 48.12%	22.42% 16.01%
Net position	\$ 379,474,540	\$ 382,699,991	\$ 312,610,522	-0.84%	22.42%

The assets of the Plan are cash and investments. The decrease in net position is primarily a result of the fair value of investments decreasing due to a negative performance in the markets in 2018 as compared to 2017. Net position held in trust by the Plan totaled \$379,474,540 and \$382,699,991 at December 31, 2018 and 2017, respectively. The Plan's net position decreased by \$3,225,451 in 2018 compared to an increase of \$70,089,469 in 2017. The net position of the Plan is held exclusively for the benefit of the Plan participants, their beneficiaries, and reasonable administrative expenses for administering the Plan.

The following table displays the changes in plan net position:

	2018	 2017	 2016	Changes 2018-2017	Changes 2017-2016
Contributions Net investment income (loss)	\$ 33,832,170 (15,294,470)	\$ 33,129,111 54,996,513	\$ 25,877,735 22,538,468	2.12% -127.81%	28.02% 144.01%
Total additions	 18,537,700	 88,125,624	 48,416,203	-78.96%	82.02%
Benefits paid Administrative expenses	21,538,461 224,690	17,799,076 237,079	18,040,063 247,417	21.01% -5.23%	-1.34% -4.18%
Total deductions	 21,763,151	18,036,155	 18,287,480	20.66%	-1.37%
Change in net position	\$ (3,225,451)	\$ 70,089,469	\$ 30,128,723	-104.60%	132.63%

The additions to the plan are comprised of contributions and investment returns, and the primary deductions from the Plan are for benefits paid to the Plan's participants and their beneficiaries. Contributions made in 2018 totaled \$33,832,170, which was an increase of \$703,059 from the contributions made in 2017. Contributions made in 2017 totaled \$33,129,111, which was an increase of \$7,251,376 from the contributions made in 2016. Benefits payments made in 2018 totaled \$21,538,461, which was an increase of \$3,739,385 from the benefits payments made in 2017. Benefits payments made in 2017 totaled \$17,799,076, which was a decrease of \$240,987 from the benefits payments made in 2016. Total investment loss was \$15,294,470 in 2018, compared to a total investment income of \$54,996,513 in 2017, which represented a decrease in investment income of \$70,290,983 in 2018.

Contact Information

This financial report is designed to provide a general overview of the Plan's finances and to demonstrate the Plan's accountability and for the contributions it receives. If you have any questions about this report or need additional financial information, contact the Plan's Financial Offices at 4502 Medical Drive, San Antonio, Texas 78229.

(A Component Unit of University Health System)
Notes to Financial Statements
December 31, 2018 and 2017

Note 1: Reporting Entity and Summary of Significant Accounting Policies

The University Health System Pension Plan (the Plan) is a single employer defined benefit pension plan which covers substantially all full-time and part-time employees of its sponsor, the University Health System (System) and provides for pension and death benefits. Participation in the Plan is a condition of employment for all eligible employees. The Plan is administered by a Board of Trustees that is comprised of seven to nine individuals. Two Trustees are appointed from System administrative staff, two Trustees are appointed from the System's Board of Managers and three to five Trustees are appointed from Bexar County residents.

Basis of Accounting

The financial statements of the Plan have been prepared in conformity with accounting principles generally accepted in the United States of America for local governmental units as prescribed by the Governmental Accounting Standards Board. The Plan's financial statements are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Federal Income Tax Status

The plan was determined to be qualified for pursuant to Section 401 of the Internal Revenue Code and is, therefore, exempt from income taxes. The Plan has obtained a favorable determination letter from the Internal Revenue Service and believes it continues to qualify and operate as designed.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Alternative investments are held in the form of nonmarketable limited partnerships and private equity funds. The fair valuation of these investments is based on net asset values as set by the fund managers or general partners. These values may differ from the value that would have been used had a readily available market for the investments existed, and such differences could be material.

The Plan's investment policy is reviewed by the Plan Trustees annually with any amendments requiring the approval of the System Board of Managers. The policy includes target asset allocations and benchmark criteria. There were no changes to the policy in 2018.

(A Component Unit of University Health System)

Notes to Financial Statements

December 31, 2018 and 2017

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2: Description of Plan

Eligibility

The System sponsors a single employer defined benefit pension plan which covers substantially all of the System's employees who work at least 20 hours per week or at least 1,000 hours annually. Employees are eligible for participation in the Plan after attaining the age of 21 and completing one year of service. Employees hired as of June 30, 2012 participate in the Defined Benefit aspect of the Plan while those hired after June 30, 2012 participate in the Cash Balance portion of the Plan.

Plan Membership

At December 31, 2018 and 2017, plan membership consisted of the following:

	2018	2017
Inactive participants		
Retirees and beneficiaries currently receiving benefits	1,117	1,031
Terminated employees with deferred benefits	1,614	1,523
Total inactive participants	2,731	2,554
Active participants		
Fully vested	3,427	3,330
Nonvested	2,784	2,534
Total active participants	6,211	5,864
Total participants	8,942	8,418

Contributions

The System has agreed (but does not guarantee) to voluntarily contribute such amounts as are necessary to maintain the Plan on a sound actuarial basis. The System has the right to discontinue such contributions and terminate the Plan at any time. However, under no condition may the System withdraw its contributions, or use them for any purpose other than the exclusive benefit of the Plan participants and their beneficiaries; and, to pay for administrative expenses.

(A Component Unit of University Health System) Notes to Financial Statements December 31, 2018 and 2017

Participants in the Plan, hired before June 30, 2012, contribute 2% of gross pay upon achievement of eligibility and thereafter until the time of retirement or separation from employment with the System. The System makes contributions which are actuarially determined to pay the Plan's total cost (determined as a level of percentage of total participant compensation) less the projected employee contributions.

Participants in the Cash Balance portion of the Plan, which are those employees hired after June 30, 2012, contribute 3% of gross pay upon achievement of eligibility; and thereafter, until the time of retirement or separation from employment with the System. The System makes contributions to the Plan, on behalf of the employee equal to 3% of the employee's gross pay. Benefits for Cash Balance participants are based on the actuarial equivalent of 6% of the participant's compensation plus interest earned. The System began making contributions to the Cash Balance portion of the Plan effective January 1, 2014.

The System also deposits amounts to the Plan to fund a Match Savings Plan to encourage eligible employees to participate in a 457 Deferred Compensation Retirement Savings Plan (457 Plan). Under the Match Savings Plan, the System will deposit 25% of an employee's contribution to the 457 Plan, up to the lower of 4% of compensation or \$12,000. Benefits will be distributed upon retirement or separation from service after satisfying the vesting requirements.

In the event of Plan termination, the net position of the Plan is to be used to pay benefits in the following order:

- (a) to retired participants, contingent pensioners and other beneficiaries who are receiving benefits on the date of termination, and to participants who have attained normal retirement age but who have not yet retired before the date of termination;
- (b) to retired participants whose early pension or deferred vested pension payments are deferred to commence after the date of termination;
- (c) to participants who have met the eligibility requirements for early retirement for early retirement or deferred vested retirement but who have not yet retired before the date of termination;
- (d) to all other participants according to the respective actuarial values of their accrued benefits as of the date of termination.

The actuarially determined annual required contributions of the System for the year ended December 31, 2018 and 2017 were \$21,110,000 and \$21,296,000, respectively, which were paid by the end of the respective fiscal year ends. The System contributed an additional \$3,000,000 to the Plan in both years, for a total of \$24,110,000 and \$24,296,000 in employer contributions for the year ending December 31, 2018 and 2017, respectively.

(A Component Unit of University Health System) Notes to Financial Statements December 31, 2018 and 2017

The following table reflects the contributions made by the System (Employer) to the pension and 457 plans:

	 2018	2017			
Pension Plan matching contributions 457 Plan matching contributions	\$ 24,110,000 1,676,644	\$ 24,296,000 1,508,043			
Total Employer Contributions	\$ 25,786,644	\$ 25,804,043			

Vesting

Plan participants have a 100% vested right in the accrued benefits derived from their accumulated contributions.

With regard to participants' accrued benefits derived from employer contributions, the participants become fully vested at the completion of 5 years of vesting service.

Retirement and Death Benefits

Participants are eligible for normal retirement benefits after attaining age 65 and completing 5 years of vesting service; or, after age 55 and the number of years of service needed to equal 85 (Rule of 85). Annual normal retirement benefits (accrued benefits) are equal to 1.5% of the participant's average 5 highest years' pay in the last 10 years, times the number of years of credited service.

An early retirement provision is available to participants who attain age 55 and 5 years vesting service, but do not satisfy the Rule of 85. The early retirement benefit equals the normal retirement benefit at actual retirement reduced at the rate of 1/15th for each of the first 5 years before age 65 and 1/30th for each of the next 5 years before age 65 and the participants actual retirement age.

Pre-retirement death benefits before vesting or attainment of age 55 are equal to the amount of the participant's contributions plus 4.5% interest per annum and may be distributed in a lump sum or in installments up to 60 months.

Pre-retirement death benefits on or after eligibility for normal retirement are payable monthly to the named beneficiary and equal to 50% of the present actuarial value of the participant's accrued benefit otherwise payable on the participant's date of death.

Plan Amendments

On September 24, 2013, the Plan was amended to indicate that employees hired by the University Health System (System) after June 30, 2012; and, previously unvested rehires are eligible to participate in the contributory Cash Balance portion of the Plan.

(A Component Unit of University Health System)
Notes to Financial Statements
December 31, 2018 and 2017

On June 11, 2012, the Plan was amended to indicate that employees hired by the System after June 30, 2012 shall not be eligible to participate in the Plan, except for the 457 Match Savings Plan. Other employees rehired after June 30, 2012 shall be treated as subject to this amendment unless they were vested in their accrual benefits prior to the date of being rehired.

Note 3: Investments

The Plan's assets are invested as authorized by the Plan's investment policy. The Plan utilizes investment consultants that make recommendations to the Plan as to the appropriate target portfolio (e.g. stocks, mutual funds, limited partnerships, cash, etc.) within the Plan. The majority of the Plan's assets, with the exception of alternative investments, are held by a custodian bank, Wells Fargo Bank. Cash equivalents are invested in a short term money market fund administered by the Plan's custodian bank.

The Plan's investments (including investments bought, sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2018	2017
Mutual Funds - common stocks - large capitalization	\$ (12,126,774)	\$ 23,589,149
Common stocks - mid capitalization	(3,263,213)	8,884,015
Fixed income securities	(2,605,926)	1,457,309
Arrowstreet Capital Internation Equity Fund	(7,136,585)	11,849,367
Portfolio Advisors Private Equity Funds	4,026,752	3,138,074
Crestline Offshore Fund, Ltd	17,408	349,041
Private Advisors Stable Value ERISA Fund	(31,870)	(251,939)
Heitman Real Estate Trust	1,485,570	917,548
Standard Life Investments	(1,077,576)	325,437
Newton Global Investments	 394,688	 217,060
	\$ (20,317,526)	\$ 50,475,061

The Plan may invest in equity securities. Investments in venture capital, private placements, lettered stock and real estate, except for publicly traded real estate investment trusts, are prohibited as are investments using options, futures, derivatives, short sales, margin transactions or other hedging strategies.

Foreign Currency Risk

Foreign currency risk is the risk of losses arising from foreign changes in exchange rates. The Plan's investment policy has a target allocation for foreign investments of 24% with a range of 19% to 29%. The Plan is subject to currency risk as currency exposures are unhedged. As international currencies gain or lose value in relation to the U.S. dollar, the Fund will gain or lose

(A Component Unit of University Health System) Notes to Financial Statements December 31, 2018 and 2017

value. The currency risk inherent in the Fund's investments is mitigated as a result of the Fund investing only in developed markets.

The following schedule addresses foreign currency risk exposure by investment type and by specific currencies:

	201	8	2017	•
Currency	Fair Value	Allocation	Fair Value	Allocation

Notes to Financial Statements

December 31, 2018 and 2017

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the Plan invests in high-quality, short-term money market instruments. These investments may have fixed, floating, or variable rates of interest. The security selection is based on several factors, including credit quality, yield and maturity, while taking into account the fund's overall level of liquidity and weighted average maturity.

The Plan's investment in Wells Fargo Advantage Treasury Plus Money Market Fund is \$3,105,167, and \$2,369,950, at December 31, 2018 and 2017, respectively, with a weighted average maturity of 7 days.

The Plan's fixed income mutual bond funds are also subject to interest rate risk. As indicated in the Plan's investment policy, investments in fixed income securities should range between 20% - 30% of the total investments. This target range helps limit its exposure to fair value losses arising from rising interest rates. The Plan invests in two fixed income mutual funds, Dodge Cox Income Fund and Loomis Core Plus, with values of \$38,989,256 and \$39,004,362, respectively, at December 31, 2018 and values of \$35,809,834 and \$35,909,682, respectively, as of December 31, 2017.

Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of failure of the counterparty to an investment transaction, a government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At December 31, 2018 and 2017, the Plan's money market funds in the amount of \$3,105,167 and \$2,369,950, respectively, are held by Wells Fargo. Wells Fargo acts as the disbursing agent for benefits to participants and to pay expenses approved by an authorized officer member of the Board of Trustees.

Concentration Risk

Concentration risk is the exposure to loss that can result from failing to diversify investments. Accordingly, a government should disclose investments that represent 5% or more of its total investments that are invested in a single issuer. Concentration risk does not arise in connection with U.S. government obligations and obligations explicitly guaranteed by the U.S. government; mutual funds; and, similar pooled investments which are designed, in part, to provide diversification.

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

(A Component Unit of University Health System)
Notes to Financial Statements
December 31, 2018 and 2017

- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- **Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2018 and 2017:

			Fair Value Measurements Using

Arrowstreet International Equity Fund invests in risk-controlled core portfolio of international equities similar to the MSCI ACWIXUS index. The fair values of the investments in this asset have been determined using the NAV per share (or its equivalents) based on the market value of securities held.

Portfolio Advisors Private Equity Funds VI, VII, VIII, and IX are private equity investments. These investments cannot be withdrawn or transferred without the consent of the General Partner. Instead, the nature of the investments in this type is that distributions are received through the liquidation of the underlying assets of each fund. The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. Investments in the limited partnerships are valued at their net asset value as reported by their underlying investment manager.

Crestline Offshore Fund is a "fund of funds" manager who allocates or reallocates capital to the investment discretion of portfolio managers by investing in the underlying private funds they manage. The fair value of the investments in this asset have been determined using the NAV per share (or its equivalent) based on the NAV of each manager.

Private Advisors Stable Value Hedge Fund is a "fund of funds" manager investing with hedge funds and other experienced portfolio managers or otherwise utilizes the services of investment advisors or other investment managers employing a variety of trading styles or strategies, including, but not limited to, direct lending, convertible arbitrage, merger or risk arbitrage and other event-driven investing, distressed and long/short credit, long/short equity, multi-strategy and other relative value strategies. The availability of valuation techniques and observable inputs can vary from investment to investment and are affected by a wide variety of factors. The fair value of the investments in this asset have been determined using valuation processes and procedures developed by a Private Advisor designated valuation committee to ensure valuation techniques are fair, consistent and verifiable.

Heitman Real Estate Trust is a perpetual life, open-ended comingled fund for the objective and purpose of creating a high quality, low risk, diversified portfolio of stabilized, income-producing

(A Component Unit of University Health System) Notes to Financial Statements December 31, 2018 and 2017

real estate investments. Fair value of this asset is using the NAV per share (or its equivalent) based on an annual appraisal performed by an independent appraisal management firm.

Standard Life Investments Global Absolute Return Strategies Offshore Feeder Fund Ltd. invests in the Master Fund with the objective to deliver positive absolute returns by investing in a combination of traditional assets and investment strategies based on advance derivative techniques using a combination of traditional assets including equities, bonds, and a diversified portfolio limited to permitted derivative contracts including but not limited to futures, options, swaps, forward currency contracts and other derivatives. The fund is valued by the manager at the end of each month.

Newton Global Real Return Fund invests primarily in a diversified group of equites, bonds, cash, as well as other assets held via tradeable securities, including real estate, commodities, currencies, and alternative strategies.

Note 4: Capital Commitments

The Plan has a commitment to invest capital in two investment companies under investment capital agreements. These commitments are subject to periodic calls from the investment companies. Following are the changes in capital commitments:

	 2018	2017
Commitment balance - beginning of year	\$ 13,948,188	\$ 16,187,357
Add: amount committed during year	20,000,000	-
Less: amount called during year	 (3,588,045)	(2,239,169)
Commitment balance - end of year	\$ 30,360,143	\$ 13,948,188

The amounts committed during 2018 were \$10,000,000 to Portfolio Advisors for the new investment in Fund IX, and \$10,000,000 to Pantheon Access for a new investment that will be funded in 2019. The amounts called during the year were for the Portfolio Advisors Funds VI, VII, VIII, and IX. At December 31, 2018, the outstanding capital commitments consist of \$20,360,143 to Portfolio Advisors Funds VI, VII, VIII, and IX as well as \$10,000,000 to Pantheon Access.

(A Component Unit of University Health System)
Notes to Financial Statements
December 31, 2018 and 2017

Note 5: Net Pension Liability

The components of the net pension liability for the System at December 31, 2018, were as follows:

	2018
Total pension liability	\$ 526,503,867
Plan fiduciary net position	360,796,823
Net pension liability	\$ 165,707,044
Dien fiduciem not resition as a negontage of total pension liability	68.5%
Plan fiduciary net position as a percentage of total pension liability	 08.3%

Actuarial Assumptions

The total pension liability as of December 31, 2018, was determined based on January data using the following actuarial assumptions:

Actuarial cost Entry age normal cost

Amortization Closed Remaining 27

Asset valuation 5-year smoothed market

Inflation: 3.5%

Salary increases: 5.4% (based on service, includes wage

Investment rate of 7.0%, net of pension plan investment expense, Retirement age: Based on age, ranging from age 55 to age 70,

Healthy mortality rates were based on the sex-distinct RP 2000 Combined Health, no Collar Adjustment Mortality Table, with rates projected using Scale AA on a generational basis, with separate tables for males and females.

The Plan generally performs an experience study every three to five years. The assumptions used to generate the numbers in these statements were based on an experience study performed in 2016.

The long-term expected rate of return on pension fund investments was determined using a building-block method in which best-estimate ranges of future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimate of geometric rates of return for each major asset class included in the pension fund's target asset allocation as of December 31, 2018 are summarized in the following table:

(A Component Unit of University Health System)
Notes to Financial Statements
December 31, 2018 and 2017

Asset Class	Target Allocation	Long-Term Expected Rate of Return			
Domestic Equity	29.0%	4.6%			
International Equity	24.0%	4.5%			
Fixed Income	20.0%	0.8%			
Real Estate	10.0%	3.5%			
Private Equity	7.0%	5.1%			
Absolute Return/Hedge Fund	10.0%	2.8%			

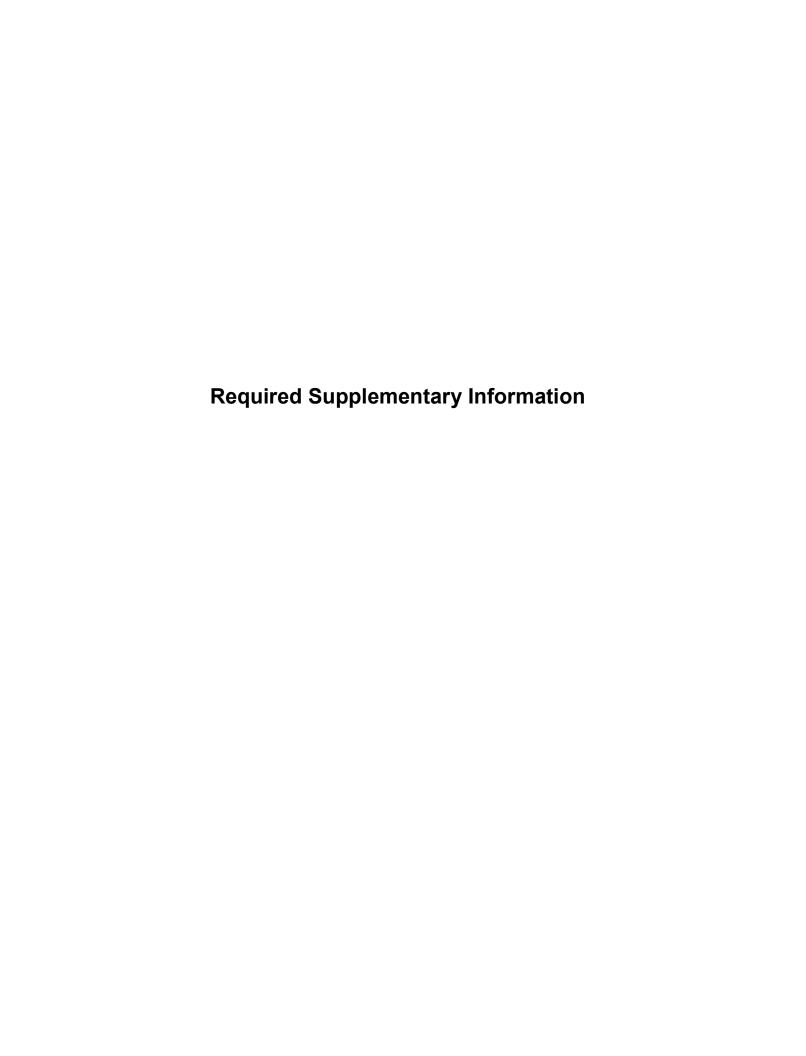

Discount Rate

The blended discount rate used to measure the total pension liability is 7.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and the System will be made at the current contribution rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension fund investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the System's calculation using the discount rate of 7.0%, as well as what the System's net pension liability would be if it were calculated using a discount rate 1% higher and 1% lower than the current rate:

	1%	% Decrease	Current count Rate	1% Increase		
System's net pension liability	\$	233,337,879	\$ 165,707,044	\$	110,633,262

Notes to Schedule:

Valuation date:

Actuarially determined contribution rates are calculated as of January 1, one year prior to the end of the fiscal year in which the contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method: Entry age normal cost

Amortization method: Closed Remaining amortization period: 27

Asset valuation method: 5-year smoothed market

Inflation: 3.5%

Salary increases: 5.4% (based on service, includes wage inflation at 3.5%)

Investment rate of return: 7.0%, net of pension plan investment expense, including inflation

Retirement age: Based on age, ranging from age 55 to age 70, with 100% retirment at age 70.

Higher rates apply when eligible for Rule of 85 prior to age 65.

Mortality - Active Lives: RP-2000 Combined Healthy; with no collar adjustment;

projected with Generational Mortality (Scale AA)

Mortality - Retired Lives: RP-2000 Combined Healthy; with no collar adjustment;

projected with Generational Mortality (Scale AA)

Other information: Plan is frozen to new participants effective June 30, 2012

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, the Plan will present information for those years for which information is available.
