

ATTACHMENT I

UNIFORM STANDARDIZATION:

The purpose of uniform standardization is to help patients distinguish roles of the health care team and enhance overall professional image. Standard uniforms and colors have been established as outlined in Attachment I.

In addition to the standards above, all employees who wear uniforms are expected to adhere to the uniform standards of their respective work areas. This includes the usage of personal protective equipment (PPE).

- A.** Uniforms/Scrubs must be clean and in good condition at all times.
- B.** Scrub hats and booties are allowed only within the setting for which they are required. Hats and booties are limited to disposable.

Uniform Grid – Direct Patient Care (Scrubs)
