

# PROGRAM STATISTICS

The Scientific Registry of Transplant Recipients (SRTR) collects data and statistics from all transplant centers in the United States and publishes this information to its website ([www.srtr.org](http://www.srtr.org)) twice a year in January and July.

## 2026 ADULT LIVER TRANSPLANTATION

REPORT PUBLISHED: January 6, 2026

### 1-Year Conditional Graft Survival

### 1-Year Survival Best With a Living Donor

More than 450 living donor liver transplants since 1999.

### 1-Year Patient Survival

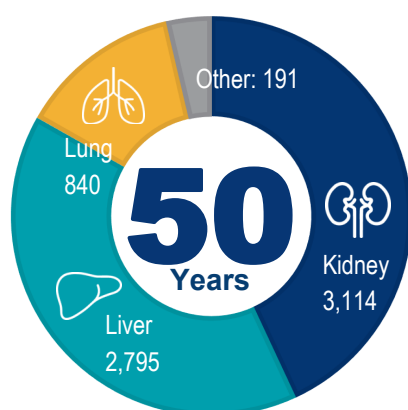

Survival rates based on transplants performed between 07/01/2022 - 12/31/2024.

Learn how to find a living donor.

**CHAMPION FOR LIFE**

First in Texas program, to increase your chances of finding a donor.  
E-mail: [ChampionForLife@uhtx.com](mailto:ChampionForLife@uhtx.com) | Call: 210-743-9799

University Health  
Transplant Institute

**6,900+**

**109**

**Overall Liver Transplant Rate  
Faster Than Regional Average**

Transplant rate ratio is a measure of how quickly candidates undergo a transplant. Rate is based on people waiting for a transplant at our hospital compared to the regional transplant rate of 84.

**1992** First Liver Transplant

More than 2,626 adult liver recipients.

Proudly partnering with  
UT Health San Antonio

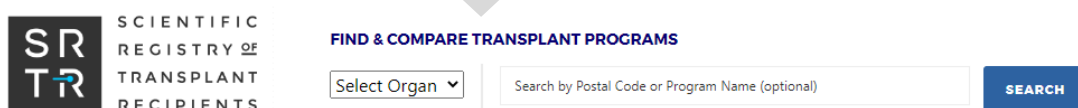

# Compare Transplant Programs

## Where to Find Program Information

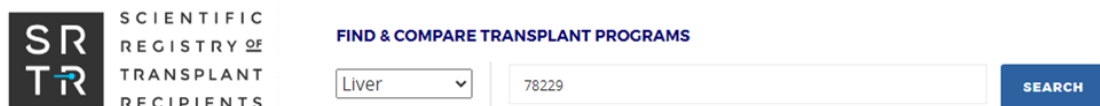

Visit [www.srtr.org](http://www.srtr.org) to perform your search. See how long patients wait for an organ transplant and how well patients do after transplant surgery. You can look up information for every transplant center across the United States. University Transplant Institute currently meets regulatory requirements by CMS (Centers for Medicare and Medicaid Services) and UNOS (United Network of Organ Sharing).

- #1** At the very top of the homepage (next to the logo), locate the drop-down menu called **Find & Compare Transplant Programs**.

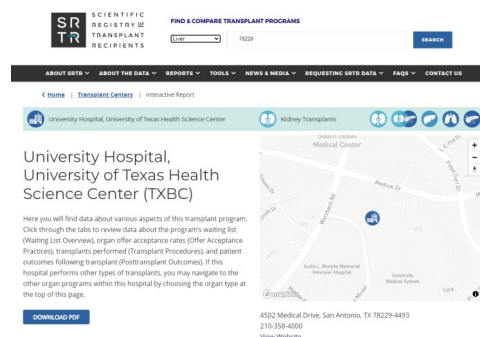

- #2** Select your search criteria. For example: you may want to look up information on liver transplants at University Health.

Choose **“Liver”** from the organ selection drop-down menu, then enter zip code **“78229”**.

- #3** Once you enter the search criteria, select the blue “search” button. Three report options appear:

- View **Summary Data**
- View **Complete Report**
- View **Interactive Report**

The **Summary Data** report provides a snapshot of transplant center information, called the “Program Overview.”

Find information on how many patients are on the waitlist, transplant rates, time to transplant (how long patients waited on the wait list), how many patients were transplanted over a one year

For help navigating the SRTR website, please contact your nurse coordinator at 210-567-5777.
