 Adverse Childhood Experiences

 Building Community Resilience
Creating a Thriving Community

 Learning Event

 Evening Session

Introduction to Trauma-Informed Care (1 Hour)

In this session, attendees will receive an overview of key elements to help build their foundation of trauma-informed care. This includes an introduction to adverse childhood experiences, the impact of trauma and trauma-informed care. This session will also highlight how the Institute for Trauma-Informed Care can assist organizations on their journey to trauma-informed certification. This presentation is derived from trainings received by international speaker Becky Haas.

Building Community Resilience (1 Hour)

In this session, attendees will learn about R.O.L.E.S., a five-step process that empowers people to not only identify their personal triggers, but to create a mental paradigm shift that takes a punitive, judgmental view of behavior and transforms it into an approach rooted in positive intent and constructive outcomes. This presentation is derived from training received from Community Resilience Initiative Course 1.

Implementing Trauma-Informed Care Principles (1 Hour)

In this session, attendees will receive an overview of the impact of trauma and an introduction to the six key principles of a trauma-informed approach. The information in this course will serve as a foundation to help you on your trauma-informed journey. This presentation is derived from Basics of Adverse Childhood Experiences (ACEs), Building Resilience and Using a Trauma-Informed Approach training received by international speaker Becky Haas.

Creating a Thriving Community (1 Hour)

In this session, attendees will learn about the K.I.S.S. framework for building community capacity through resilience. This model is a public health framework that shows how to build human capital collectively by creating stronger communities that can thrive and better manage the impact of risk. This presentation is derived from training received from Community Resilience Initiative Course 1.

Adverse Childhood Experiences (1.5 Hours)

In this session, attendees will learn about the ACEs study, why ACEs have an immense effect on people's lives, and what we can all do to dramatically improve health and resilience for future generations. This presentation is derived from training received from ACE Interface and conducted by an approved master ACE trainer.

ABOUT THE PRESENTER

Sabrina Spencer

Sabrina Spencer currently serves as a lead clinical specialist social worker at University Health. Sabrina holds a license in clinical social work, is certified by the Academy of Certified Social Workers and has earned a doctorate in social work. Sabrina has years of practicing experience as a clinician in both behavioral health and medical settings. Some areas of her professional experience include crisis and disaster, trauma and traumatic stress, death and end-of-life, trauma-informed care, clinical practice and the intersection of policy and practice. Sabrina completed her doctoral research on social work crisis interventions with traumatic death survivors and currently provides behavioral health services for trauma survivors at University Health.

ABOUT THE PRESENTER

Katherine Giddens

Katherine Giddens currently serves as a clinician II at Family Service. Katherine is a licensed professional counselor with more than five years experience and has been a practicing counselor since 2015. Katherine has experience working with adults, adolescents, teenagers, children and families. In addition to her career as a counselor, she is pursuing a certification in play therapy. Katherine strives to highlight the importance of healing from trauma by providing hope and security to each family she serves. Katherine continues to provide for those in need and spreads awareness of the power of healing.
